ALABAMA DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

- **Wildlife and Freshwater Fisheries**
- Marine Police
- Marine Resources
- State Lands
- State Parks

Mission Statement:

The mission of the Wildlife and Freshwater Fisheries Division is to manage, protect, conserve, and enhance the wildlife and aquatic resources of Alabama for the sustainable benefit of the people of Alabama

Environmental Coordinator's Office

- **FERC- relicensing**
- **EIS/EA Review**
- **Mitigation Banking Proposals**
- **Sections 10 and 404 comments**
- **State Protected Species**
- **Fish kills**

Overall we comment on the proposed impacts to habitat of Alabama's flora and fauna, and work to ensure that any authorized impacts are properly mitigated.

James S. Cherry II
Environmental Coordinator

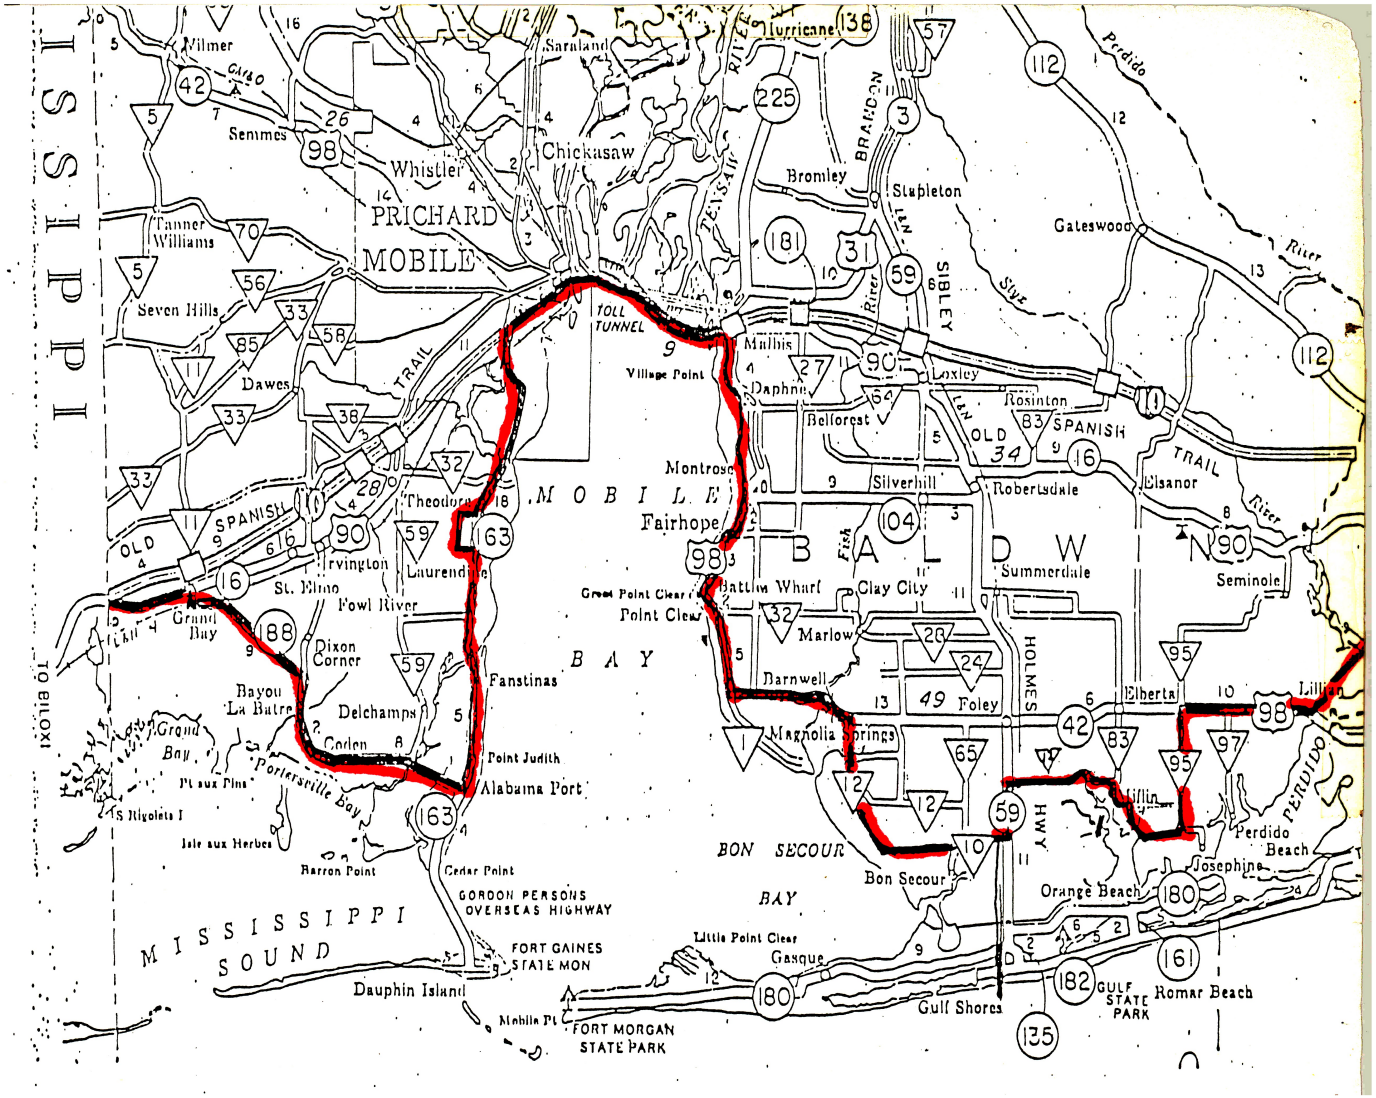
The Marine Resources Division manages the estuaries and saltwater resources along Alabama's Gulf Coast. The division manages Alabama's marine fisheries resources with assessment and monitoring, applied research, and enforcement programs. Marine Resources offices on Dauphin Island and in Gulf Shores, Alabama



The 10-foot elevation contour. The Division of Wildlife and Freshwater Fisheries addresses biological/ecological impacts north of this line, and the Marine Resources Division handles bio/eco impacts below (south of) the 10-foot contour line.
